42—MAIN STREET.—42

Lockport Daily Journal.

LOCKPORT, N. Y.

Monday Evening, Aug. 9, 1869.

CITY AND VICINITY.

Local Brevities.

—Cultivated black raspberries are being gathered in profusion on Grand Island.

—The annual fair of the Niagara county Agricultural Society, will be held on the Grounds of the Society at Lockport, on the 7th, 8th and 9th of October next.

—The match game of base ball between the Alerts of Rochester, and Haymakers, on the grounds of the latter, on Saturday, was won by the Haymakers, 53 to 15.

—The Central City base ball club defeated the Niagaras of Buffalo, in that city, on Saturday, by a score of 18 to 15. This is the first game won by the Central City's since starting out on their western tour.

—"The melancholy days,"—the saddest of the year's won't work any great changes in weather and temperature if this continues. We haven't had an old fashioned hot day this summer.

—Regular meeting of Niagara Union Encampment No. 19, I. O. of O. F., this (Monday) evening, August 9th. Let every member be present.

—The County Court and Court of Sessions convened at the Court House, in this city this morning, Judge Gardner presiding. Until noon nothing was done save the hearing of motions and arguments by counsel. We understand that a great desire was felt on the part of jurors and others having business at court to have it adjourned for a week or two, in order that farmers may not be interfered with in the harvesting of their crops. In deference to this desire it was very properly and considerately intimated by the Judge that he would to-day adjourn the Court for a week or two. He may, however, try cases that can be disposed of by argument of counsel without a jury.

CLINTON ST. M. E. SUNDAY SCHOOL PICNIC.—The Clinton St. M. E. Sunday School will hold a picnic in Watson's Grove, near Middleport, on Thursday, Aug. 12, 1869 Friends are invited.

ANOTHER SUSPENSION BRIDGE.—There is, we are informed, a movement toward the building of a third suspension bridge across the Niagara river, from Goat Island on the American side, and as close to the horseshoe falls as possible. It will be used by pedestrians only.

THE ECLIPSE.—The eclipse of the sun, set down by astronomers for the 7th of August, came on as announced. The sky being cloudless as the appointed hour approached, every face was turned westward to catch the first glimpse of the wonderful phenomenon. In this city the eclipse commenced at 4:50, and ended at 6:42 P. M., clock time. The planet Venus was distinctly visible to the naked eye, from 5:30 to 6:10, P. M.

NORWAY OATS.—Shaeffer & Penfield have contracted for ten acres of this valuable variety of oats, which is now growing on the Clark Lewis farm, two and a half miles up the Transit. This oat averages from four and a half to five feet high, and stands erect when other oats in the immediate neighborhood are badly lodged. They are prepared to contract them to farmers for seed. There is a grade of premiums offered by the New York agents, in the "Independent," from $25 down, for the best 100 heads. Mr. Lewis makes this, year nearly $400 more on this field than if he had sown it with the same kind he sowed on his other field, showing the importance of getting the best variety of seed. A sample can be seen at Shaeffer & Penfield's store on Market street.

LYDIA THOMPSON BURLESQUE TROUPE.—This celebrated company of English artistes are now rusticating at the Falls. They have just closed in New York one of the most successful engagements on record, having played at Niblo's Garden to crowded houses for over eight months.

It is announced that they are to play an engagement of one week at the Academy of Music, Buffalo, commencing on Monday evening next. In order to give the citizens of Lockport an opportunity of seeing the fascinating Lydia and her company the Messrs. Mooch propose to run a special train, returning after the performance. This will be a rare opportunity, and we do not doubt there will be a large number of the admirers of this celebrated troupe who will wish to take advantage of it.

One half the seats of the Academy will be reserved for Lockport. A diagram of the theatre may be seen at Scovell's News Room, where seats may be secured and tickets purchased without extra charge.

AN ENTERPRISING FIRM—MECHANICAL SENSE.—In the front rank of the many enterprising business interests in our young and thriving city may be placed the firm of Vedder & Beck, Harness and Trunk Manufactory, on Pine street. These gentlemen, starting in business some four years ago, in the face of a heavy competition and an already well supplied market, have won their way to the highest niche of fame, for their substantial, as well as the fine workmanship, beauty of finish and artistic skill in the manufacture of harness, and are not surpassed in the beautiful style of their work by any firm in Lockport, or western New York. At the State Fair, last year, the harness exhibited by the firm of Vedder & Beck took the first premium. This premium was competed for by the skilled and artistic workmanship of nearly every city and village in the State. We were this morning shown a harness, which is now being manufactured by this firm for Mr. S. Landsberg, a wealthy jeweler, residing at 212 Broadway, New York, and is of an entirely new style of work and finish,—called the hectagon style—the trimming being of the very best and finest kind of Oreide stock. On the strap loops are the initials of the owner, with a spread eagle in the center, in raised work, all done by hand, displaying some of the finest and most beautiful pieces of mechanism we have ever seen. There are also other specimens of fine and skillful workmanship on this harness, which must be seen to be appreciated. We [illegible] the ambition of those of our citizens who admire and appreciate superior skill in this kind of work, the Messrs. Vedder & Beck will have this harness on exhibition at their establishment on Pine street for a few days.

THE NEW INSANE ASYLUM.—As before announced in these columns, the locating Commissioners for the new State Insane Asylum, have been invited to visit this city for the purpose of examining as to the eligibility of a site for the location of the asylum in Lockport. The commission is now engaged in examining the Institution at Utica, of which its President Dr. Gray, is the Superintendent. The object of this inspection is for the members to inform themselves as to the prime essentials in a site for such an asylum. Among them we understand, it is held, are the following. Readiness of access; two hundred acres of good land suitable for farming, gardening and ornamental purposes; a bountiful supply of pure living water; facilities for thorough and inexpensive drainage; nearness to churches of four or five denominations; a good market for fruits, vegetables and farm produce; a healthful air; a near abundance of suitable building material for the structure, with facilities for doing the work. We do not think that any point in the District can meet these wants so fully as Lockport. Our facilities for obtaining building materials at cheap rates, are not equaled by any city or town in the State; the supply of country produce, such as an institution of this kind would require, is abundant; our city too is easy of access from all points in the district; and our climate is healthy, mild, genial and salubrious. It is the intention of the Commissioners to visit all places to which they are invited some time next month, and we have little doubt that with the proper spirit manifested on the part of our citizens, and the impartial consideration by the Commission of the eligibility of Lockport as the proper location, that this beautiful institution will yet grace the fair proportions of our enterprising and rapidly growing city.

HOME ENTERPRISE

A. S. Acker's Machine Shop.

Our list of home enterprises would be far from complete if we were to omit the establishment named above, which is one of the many instances of the removal of active men from other localities to our own city, for the purpose of carrying on their business.

Mr. Acker was formerly in charge of the Curtis Buckeye Mower and Reaper Works at Albion. He left this position, and for a year previous to his coming to Lockport, had the supervision of a flourishing establishment at Auburn.

His location is in the rear of the depot, in the building which the Holly Company formerly used as a foundry. Mr. Acker has fitted it up and put in machinery calculated for doing all kinds of job work. He does not manufacture to any extent, except in the case of his patent "Ball wrist, and Fountain Pitman Box." This patent is one of great importance, and is generally liked wherever used. It is a great improvement on the old box, carrying a much larger quantity of oil and discharging it only when the machine is in motion, while the ball wrist gives the partial effect of a ball and socket joint, freeing the bar and knives from a sudden strain, and obviating the use of a swivel. The counties of Wayne, Orleans and Niagara, are partly supplied with this pitman box, and Mr. Acker is ready to sell the right [illegible] to those desiring to engage in the introduction of this patent, which only needs presentation to the notice of farmers, to make it a popular and necessary accompaniment of their mowers and reapers. Mr. Acker is also making patterns and patent office models. We recommend him to any who want finely finished work done promptly. He has already become well known to our Niagara county farmers, by his careful attention to their orders and to the timely execution of them.

He is also putting the Doty Ratchet Coupling on many machines with his own pitman box, and they work together like a charm.—This coupling is the invention of J. W. Doty, of Lockport, and it is a very simple, but beautiful and useful patent, a vastly better instrument for the purpose than the old bolt coupling. It can be adjusted so as to keep the friction at a minimum all the time, and it secures a steady, unshaken movement of the blade. With it, no power is lost by loose joints.

Mr. Acker has another invention, the offspring of his own creative genius. It is the "Compound Shears and Rod Cutter." It works by a compound hand lever and will cut bolts and pins of nearly every size in a very rapid and neat manner. The purchase increases as the lever drops and is greatest just at the time of cutting. It is easily worked and is a very convenient and almost indispensible machine to all workers in iron.

The county right is owned by Mr. Acker for sale of the "Sherwood Potato Planter," which he intends to manufacture next winter. This is an invention of Mr. Sherwood, of Millville, Orleans county. It plants from six to ten acres a day. In one passage over the soil it marks the ground, opens the furrow, drops and covers the potato. This machine is designed and destined to free many a toil-worn husbandman from the slavery of the hoe.

The damage which Mr. Acker sustained at the very outset of his business among us by the fire which nearly destroyed the Morse cutlery establishment, has been repaired. He deserves and is receiving the patronage of our citizens and the people of this vicinity. We do not hesitate to say that he will continue to merit and obtain warm friends, hearty good wishes and a generous support in his growing trade.

MONTHLY MEETING OF THE NIAGARA COUNTY AGRICULTURAL SOCIETY.—Pursuant to adjournment, the Board of Managers met in the Supervisor's rooms, Lockport, Saturday, Aug. 7th.

Present—Albert Flanders, President.
H. Babcock, Vice President.
Geo. N. Nichols, Secretary.
E. Simmons, Treasurer.
Wm. Pearson, Geo. B. Townsend, D. D. Davidson, Jonas Young and G. J. Baugham, Directors.

The Society took into consideration the time for holding the annual fair, which on motion was appointed to be held upon the 7th, 8th and 9th of October, 1869.

This is somewhat later than usual, but it becomes necessary in order that the new building upon the grounds shall be completed.

Some measure being needed to secure funds for the erection of the building, motion was made and carried, that the society's grounds be mortgaged to the amount of sixteen hundred dollars ($1,600) for that purpose. ALBERT FLANDERS, President.
GEO. N. NICHOLS, Secretary.

—$5.00 will buy a tip-top Calf Boot at [illegible]

A FLATTERING NOTICE.—J. Hodge, Secretary of the Gargling Oil Company, of this city, has received the following very flattering letter from one of the largest Patent Medicine establishments in the United States:

OFFICE OF JOHN F. HENRY,
(SUCCESSOR TO DEMAS BARNES & CO.),
UNITED STATES MEDICAL WAREHOUSE,
8 COLLEGE PLACE.
NEW YORK, Aug. 6, 1869.

J. Hodge, Secretary Merchant's Gargling Oil Co., Lockport, N. Y.

DEAR SIR: It gives me pleasure to bear testimony to the great popularity of your Gargling Oil. I commenced business about fifteen years ago, and have sold the Oil during all that time; and have found the sale to increase year by year, constantly and steadily. It forms no inconsiderable portion of the immense business in Proprietary medicines now carried on by me; and I am in the daily receipt of orders for it from all parts of the United States and South America, and from many countries in Europe.

I have the honor to be, your ob't servant,
JOHN F. HENRY,
For D. S. BARNETT.

LOCAL NOTICES.

FOR SALE.—The Stock and Fixtures of the Millinery Store occupied by Mrs. Johnson, No. 89 Main street, Lockport, N. Y. aug-dclw

—"Barrett's" Famous Hair Restorative.

PAIN KILLER.

ASIATIC CHOLERA.

THE STRONGEST PROOF OF INTRINSIC MERIT.

DEAR SIRS: I should have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The cholera appeared here soon after we received it. We resorted at first was kept of all to whom the Pain Killer was given, and our native assistants assured us that 8 out of every 10 to whom it was prescribed recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear Sirs, gratefully and faithfully yours,
J. M. JOHNSON,
Missionary at Swatow, China.
PERRY DAVIS & SON,
Manufacturers and Proprietors, Providence, R. I. Jy29-dclww

THE KIDNEYS.

THE KIDNEYS are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior, and the Exterior.

The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube, and called the Ureter. The ureters are connected with the bladder.

The bladder is composed of various coverings of tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT OR RHEUMATISM—Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

THE GRAVEL—The gravel ensues from neglect or improper treatment of the kidneys. These organs decay, but allowed to remain, it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DROPSY is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when general diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT—Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water; scanty secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color, or dark water. It was always highly recommended by the late Dr. Physick, in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery or calcareous depositions, and all unnatural enlargements, as well as pain and inflammation, are reduced, and it is taken by men, women and children. Directions for use and diet accompany.

PHILADELPHIA, PA., Feb. 25, 1867.

H. T. HELMBOLD, Druggist:

Dear Sir—I have been a sufferer, for upward of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had tested almost all kinds of advertised remedies, and had found them, almost all kinds, worthless, and some worse than worthless, in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I know of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advise, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you, and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:

Hon. WM. BIGLER, ex-Governor, Pennsylvania.
Hon. THOS. H. FLOURNOY, Philadelphia.
Hon. J. C. MNOX, Judge, Philadelphia.
Hon. J. S. BLACK, Judge, Philadelphia.
Hon. D. R. PORTER, ex-Governor, Philadelphia.
Hon. ELLIS LEWIS, Judge, Philadelphia.
Hon. R. C. GREER, Judge, United States Court.
Hon. G. W. WOODWARD, Judge, Philadelphia.
Hon. W. A. POTTER, City Solicitor, Philadelphia.
Hon. JOHN BIGLER, ex-Governor, California.
Hon. E. HARRIS, Auditor-General, Washington, D.C.
And many others, if necessary.

Sold by Druggists and dealers everywhere. Beware of counterfeits. Ask for Helmbold's. Take no other. Price $1.25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N. Y.

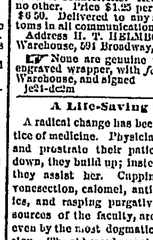
☞ None are genuine unless done up in steel-engraved wrapper, with *fac simile* of my Chemical Warehouse, and signed
jo21-dclm H. T. HELMBOLD.

A Life-Saving Reformation.

A radical change has been introduced in the practice of medicine. Physicians have ceased to torture and prostrate their patients. Instead of pulling down, they build up; instead of assaulting nature, they assist her. Cupping, leeching, blistering, venesection, calomel, antimony, stupifying narcotics, and rasping purgatives, once the favorite resources of the faculty, are now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which must be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as essential to the cure of all local ailments. Hence it is that HOSTETTER'S STOMACH BITTERS, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggles with disease, has been cordially approved by practitioners of the modern school. It is pleasant to reflect that reason and philosophy have at last been victorious over the errors of the past, and that thousands, and tens of thousands, of human beings are alive and well to-day, who would indubitably be mouldering in their graves, had they been subjected to the pains and penalties which were deemed orthodox and indispensable thirty or forty years ago.

Preventive medication was scarcely thought upon; but now it is considered of paramount importance, and the celebrity of the STANDARD INVIGORANT, ALTERATIVE AND RESTORATIVE of the age (a title which HOSTETTER'S BITTERS have fairly earned by their long career of success), is mainly due to its efficiency as a PROTECTIVE PREPARATION.

A course of the BITTERS is urgently recommended at this season of the year, as a safe and certain antidote to the malaria which produces intermittent and remittent fevers, diarrhœa, dysentery and other maladies.



HALE'S VEGETABLE SICILIAN HAIR RENEWER.

READ! READ! READ!

PANIC! PANIC! PANIC!

THE GREATEST PANIC

EVER KNOWN IN THE DRY GOODS MARKET.

Goods fell full one-half in the last thirty days, and not having much of a stock on hand to get rid of at high prices, I marked them all down to correspond with the new ones, of which I bought the largest Stock ever brought to this City, and will open them, on the

ONE PRICE SYSTEM!

—ON—

June 1st, 1869, at

UNDERWOOD'S,

LOCKPORT, N. Y.

know that the one-price system will come out head.

I now propose to give the Citizens of this County the benefit of the great crash, and will sell them, from now until SEPT. 1ST, 1869, at 25 to 50 per cent. less than any other House in the City; for I have no high-priced goods to work off, and will go in for large sales and small profits. All my goods will be sold cheaper than ever known before. All my goods are warranted to be the best goods made, or no sale. I propose to knock the bottom out of all high-priced goods.

I am bound to sell all my goods before September 1st, 1869.

I will give you prices of a few goods in each Department. Remember that I did not buy any goods in March, when goods were high; so I have no goods that cost over fifty cents on a dollar of what they cost in March:

DRESS GOODS.

5,000 Yards of Best Madder Prints at 6¾ cents, worth 10 cents.
10,000 Yards of Best Merrimac at 12½c, worth 15c.
