DODD'S NERVINE ONCE MORE

The standard remedy for billiousness with the medical profession is the Anti-Billions Pilliof the American Pharmacopeda. And its reputation has been well enough deserved. But it is a Pill, neverthelees and most people of sensibility feel something about as big as a meeting house coming into their throat, whenever a pill is spoken of—not to said that when, "for a proper effect," some three, four, five often six must be swallowed, one after the other, each sticking a 't graps, that the meeting home incontinently fills with a d grasting congregation. DODD'S NEHVIN: AND I VIGORATOR acts efficiently on the billiary organism; it irritates neither stomach nor intestine in its operation; and what is not most essential (for the effect and not the taste is first looked to), but whats Virly IMPORTANT, as all good nurses know, it is MOST A GRREABLE TO TAKE, being as pleasant to the painte as any delicate wine. We sliknow how it is with Cod Liver Oil. In a pure saste it is excellent for certain conditions of deblity, and particularly in tendencials to Consumption; and jet many of the best physicians decline to perscribe it, because itse dreafully sickens the patient. That, they say, trakes it do more harm than good. With Bodd's Nexune, all this becomes obsolete.
