For sale by all that season of the year. By the timely expulsion of them many rankling disorders are nip-ped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endu-rance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when .-Even where no particular disorder is felt, people enjoy better health, and live longer, for cleaning the blood. Sarsaparilla has, and deserves much, the repntation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drugg alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but

During late years the public have been misled by large hottles, pretending to give a quart of Extract of Sarsaparilla for one dollar.-Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative propensatives whatever. Hence, bitter and painful disappointment has followed the use of various extracts of Sarsaparilla which flood the market, until the name itself is justly despited, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests npon it. And we think we have ground for believing it has virtues which are irresistable by the ordinary run of the diseases it is intended to cure.-In order to secure their complete eradication from the system, the remedy should be judici ously taken according to directions on the bottle.
