Editorial Correspondence.

MONTPELLER, NOV. 2.

Dear Heraid,-Since the departure of General Sheridan the Legislature has been busily engaged in its legitimate work. On Thursday Governor Page nominated to the Senate, and they condrmed, Lafayette F. Ward of Westminster, as a member of the Board of E tucation, in the place of Edward Conant of Randolph, resigned. Mr. Conant is Principal of the State Normal School for the second Congressional District, located at Randolph, and as the Board of Education have the general supervision of these schools, and nominated their principal, he did not deem it proper that one in this position should be a member of the Board. It is understood that the Board of Education have tendered the Secretaryship to Andrew E. Rankin, Esq , of St. Johnsbury, vice J. Sullivan Adams, Esq., of Burlington, resigned. Mr. Rankin is a graduate of Middlebury College, a teacher of excellent reputation, and is at present the County Clerk of Caledonia County.

The papers of the State have noticed the unjustifiable attacks made by Secretary Adams in his annual report upon the Board of Education, on account of their selection of the texts books for the schools. It is to be regretted that one who has done so great service for Vermont and her schools, however much he might have differed from the Board, should have allowed himself to give vent to his private prejudices against them in the report, much to the injury of the Educational interests of the State, We do not however propose to review the position taken by Mr. Adams, as the Board have prepared an elaborate and searching answer to the charges made, and in reference to Mr. Adams himself, which we shall lay before our readers at an early day, which will be a full reputation of the position taken by him, and giving full reasons for their action.

The hearing in the Walloomsac Railroad controversy was commenced on Thursday evening before the committee on railroads of both Houses. Hon, C. Willard, Hon. Timothy P. Redfield, Hon, Leverett B. Eoglesby, Hon. A. B. Gardiner, B. F. Fifield, E-q., and Tarrant an army estimated at 5,000 men. He Sibley, Esq., appearing as counsel for the Messrs, Burdens, the applicants, Hon. T. W. Park, Hon. Lake P. Poland and Hon, Dudley C, Denison, appear for Mr. Park in resisting the application. The first evening was consumed in the examination of E, F, Johnson, a civil engineer, who presented maps and profiles. Every point was contested and brought out that would favor the project, and the opposition were very careful to bring out all that was damaging to the application. On the second even- Napoleon has demanded an explanation ing so great was the desire of members to listen to the proceedings, that the Hall of the House of Representatives was opened to the committee. The examination of Messrs, Wm. F. and James Burden took place, which mainly consisted in making an explanation of the reasons for the application, the extent of their business relations and the mining resources they are seeking to develop. The cross examination related to the same subjects, and in addition various inquiries as to their relations and contracts with the Troy and Boston Railroad, with an occasional episode in reference to the late election in Bennington County. The applicants rested their testimony for the present on Friday evening. Mr. Park, it is expected, will commence the testimony in opposition on Tuesday. The Legislature, contrary to expectation, had a quorum on Saturday morning, and basy sessions were had in both houses; but no quorum appeared in either house in the afternoon. Were it not for railroad questions, the Legislature could, from all that now appears, adjourn on Wednesday the 18th.

-John Minor Botts of Virginia arrived in Washington on Saturday. He takes very despondent view of the political condition of Virginia. He thinks that the whites of Virginia are disposed to proscribe negroes for voting in favor of a convention, and says that numbers of the latter have been discharged by their

white employers in the cities, as well as in the country. The negroes, Mr. Botts says, are forming co operative societies. and their determination is not to work for those who have proscribed them when there shall be a demand for labor. -The National Democratic Executive Resident Committee met at the Metropolitan Hotel on Friday. All the memhers were present, together with a number of specially lovited gentlemen. The general state of the country and the prospects of the Democrats in the November elections were freely discussed. An address to voters at the elections to be held during the present month was adopted, calling upon them to unite with them in laboring for the success of the Democratic party. The committee have extended a special invitation to the National Democratic General Committee to meet them at the Metropolitan Hotel at noon on Thursday next. The committee, after a free interchange of views on

the situation, adjourned until next Thursday at noon. -In a claim for the second install-

ment of bounty by a soldier at home on furlough, on the grounds that regiments mustered out in the field were allowed pay while en route to and until they arrived at State rendezvous, the place of dual discharge and payment; and the time thus paid for embraced the full period of eighteen months, the proper accounting officer decides that as he had no journey to perform, he is consequently entitled neither to travel, pay subsistence in kind nor commutation therefor, his discharge taking effect immediately on the muster out of his regiment. He was neither subject to military orders. after that date, nor entitled to pay ; and having served less than eighteen months, the second installment had not matured, and no bounty is due.

EUROPEAN NEWS .- The latest advices from Italy state that the French troops had entered Rome. No enthusiasm was manifested on their appearance. Garitaldi was still in front of the city with was constantly receiving recruits. The headquarters of the National party at Florence had been closed by order of the Italian Government, and the action of relief committees suspended.

- The Provincial Correspondenten, published at Berlin, semi-officially announces that the Prussian Government will interfere in the affairs of Italy if necessary to preserve the peace of Pn.

-Fhe Paris Moniteur declares that from Victor Emanuel regarding the latter's invasion of Papal territory.

-Lord William Rosse, a celebrated astronomer, died at London, Friday in the sixty-seventh year of his age.

### Local and State Items.

AN AGED CITIZEN ASSAULTED .- Mr. Reuben Clark, father of H. G. and Norman Clark, was assaulted and knocked down in front of Buffam's Block, about six o'clock on Saturday evening, by a Frenchman, who was intoxicated, named Francis Gillette, from Centre Rutland. He was arrested and sent to jall. He said he procured his rum near by where the assault was made. Shall such transactions be allowed on public streets by drunken men.

BASE BALL MATCHES .- A friendly game of base ball was played in Cuttingsville on Saturday last between the Dexter Base Ball Club of Rutland and Always Ready Club of Cuttingsville, resulting in a victory for the Dexters by a score of 40 to 0; also a game between the Dexter and Nameless Clubs (senier) on the same day and place, resulting in a victory for the Dexters by a score of 32 to 7.

REPUBLICAN STATE COMMITTEE,-The Republican State Committee met on Wednesday last at Montpelier, for the purpose of organization. The committee consists of the following gentlemen :

First Congressional District-Charles W. Willard, Montpeller; Redfield Proctor, Rutland, Geo. W. Grandey, Vergennes. Second Congressional District-B. D. Har-

ris, Brattleboro; Roswell Farnham, Bradford : Samuel E. Pingree, Hartford, Thirk Congressional District-G. G. Benedict, Burlington; Wm. W. Grout, Barton; Dana R. Bailey, St. Albans.

An organization was perfected by the election of Gen. Geo. W. Grandy, of Vergennes, Chairman, and G. G. Benedict, of Burlington, as Secretary and Treas-

urer. We are authorized to say that early and vigorous measures will be adopted by the Committee preparatory to the approaching Presidential campaign.

#### Bonding Towns to build Railroads.

For several days the question of bonding towns to build rallroads has occupied the attention of the Legislature. the bill allowing the towns interested in the building of the Lamoille Valley railroad to bond themselves having been under consideration. The bill passed the House and was sent to the Senate. The House afterwards re-called the bill and the Senate sent it back. The vote by which the bill was passed was reconsidered, and then came amendments of various kinds, some of which were adopted, taking from the bill some of its objectionable features. After a protracted session on Thursday afternoon until at Brattleboro, commencing at 9 o'clock seven o'clock, the bill again passed the House as amended, and sent to the Senate where is may state to consisting of the Senators from Caledonia, Lamoille, Orleans, Franklin, Chittenden and Washington counties, as towns in all these counties are embraced in the provisions of the bill. The Senate will act upon the bill early this week. The following is the list of members from Rutland county, who voted on the prejudices, all disposition to stand aloof reconsideration of the passage of the and look on with critical coldness, and hill Yeas Benson of Clarendon, Frisble of Poultney, Glbbs of Pittsfield, Goodell of Brandon, Grover of Wells, Howe of Castleton, Holmes of Sudbury, Kellogg of Benson, Proctor of Rutland, Reed of Danby, Thompson of Mt. ### Young Men's Christian Convention.

We are requested to publish the following call for a Young Men's Christian Convention for the County of Windham, to be held at Brattleboro November 12th:

It is one of the most encouraging signs of the times that God is everywhere turning the hearts of His people to a deeper consideration of the importance of activity and union in His service. As a result of this change of feeling, Christians in various parts of the country have been moved to assemble together, regardless of denominational distinctions, to provoke one another unto love and good works, and to consider more especially the means by which the lay members of the church may accomplish more than heretofore in the service of christ, in the fulfilment of Ils great command to "preach the gospel to every creature."

Is accordance with this feeling a mass Christian convention was held at Burlington, commencing October Sth, under the auspices of the Young Men's Christian Associations of Vermont. That convention was a great success. To many of the Christian pastors and people of our State it proved a Jerusalem indeed. Among other resolutions the

conven tion passed the following : Resolved. That the associations of this State be requested to act in connection with the State Executive Committee to provide for holding christian conventions in each county, having in view as an object the organization of Young Men's Christian Associations throughout the State.

To carry out the spirit of this resolution as well as to arouse an interest in the churches to the great work given us to do, and to aid in securing that union of effort and sympathy among christians which is so important to the greatest success in our God-given mission, we cordially invite each evangelical church in this county to send its pastor and as many of its members as have a desire or would esteem it their privilege to attend, to meet in a mass christian convention to be held in the Congregational Church on the morning of Nov. 12th, and ending at 9 P.M.

Do not feel, brathese, they sate to a matter in which you have no interest. The destiny of hundreds of souls in our county is at stake. Let us, who love the Lord Jesus, prove ourselves equal to the demands of the hour.

In conclusion, let us urge those who attend, to come laving aside all sectarian be prepared to contribute each his own earnest efforts and prayers that this convention may prove a blessing to our county, and the beginning of a new era in its religious history. Brothers and Sisters remember us at the Throne of Grace.

long services as Chief Justice of the Supreme Court had given him a wide fame, and the crowning of his public life as Governor, made the portrait more valaable to the State. The Executive chamber now contains likenesses of Governors Tichenor, Mattocks, Palne, Fairbanks, Holbrook and Smith. It is hoped Governors Hall and Dillingham will soon be added to the list. We understand Mrs. Robinson has also copied a faithful portrait of Governor Hall recently, and which we trust may be added to the collection. Had we preserved, as other States have done, portraits of all our chief magistrates, what a fine gallery would there now be at the capital, of a noble race of men. Mrs. Robinson is an unassuming lady, who has performed this noble act, without reward, from simple love of art, and has no expectation of a public announcement, yet we trust no rules of propriety have been violated in doing an act of justice to her for her truly valuable labors.

HOOSIC TUNNEL .- Several ineffectual attempts have been made to recover the bodies of the men lost in the recent accident at the central shaft at the Hoesac Tunnel, and on Friday the North Adams fire engine was employed to force down air, after which Thomas Mallory descended to the water, and found it 48 feet deep. It will be impossible to do anything effectually toward recovering the bodies until proper machinery is ejected and the water pumped out.

## A CROSS THE SIERRA NEVADAS THE CENTRAL PACIFIC RAIDROAD.

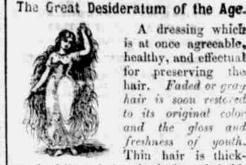

THE CENTRAL PACIFIC RAIDROAD. The Western half of the Great National Trunk Line across the Continuit, being con-stracted with the aid and supervision of the United States Government, is destined to be one of the most important lines of communi-cation in the world, as il is the sole link be-tween the Facific Coast and the Great Interior Basin, over which the immense Overland travel must pass, and the principal portion of the main stem line between the two Occans. Its line extends from Sacramento, on the tidal waters of the Facific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in forming operation to the summit of the Sterra Nevada. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the moun-tins to a point in the Great Sait Lake Valley. tains to a point in the Great Sait Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at Iron, materials and equipment and 0,000 men are hand for 300 miles of road, and 10,000 men are employed in the construction. The local business upon the completed por-The local business and previous estimate. The

The local business upon the completed por-tion surpasses all previous estimate. The figures for the quarter ending Angust 31 are as follows in Gold: gross earnings, \$487,579 64; operating expenses, \$85,513 67; not earnings, \$401,631 17, or at the rate of two millions per annum, of which more than three-fourths are not profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transport-ation, and is exclusive of the materials carried for the further extension of the road. The Company's interest liabilities during the same period were less than \$125,000. And to this an eyer symanding through traffic

Add to this an ever expanding through traffic

Add to this an ever expanding through traffic and the proportions of the littate dishies we come immense. The Company are authorized to continue their line eastward until it shall meet and con-nect with the roads now building east of the Rocky Mountain ranges. Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles \$28,532,000, or at the average rate of \$35,000 per mile-not including an absolute grant of 10,-000,000 acres of the Public lands. By becoming a joint investor in the magnificent enterprise, and by waiving its firstlien in favor of the First Mortgage Bondholderr, the General Govern-

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original colorand the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usclulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from taraing gray or falling off, and consequently prevent, baldness. Free from those deleterious substances which and other reparations dangerous and in rotation the hair, the Vigor can one bear a but not harm it. If wanted 1511 09871401

untaing else can be found so desirable. Containing stilling oil mar dye, it does not soil while cambrie, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

-The Adams Express Agent for the United States Treasury Department on Saturday received orders from China for a supply of specimen samples of fractional currency. They will be sent to the Chinese government at once. This is the second order received from a forthree months.

-John H. Gilmer, the rebel lawyer who protested against the legality of the election ordered by Gen. Schofield in Virginia, arrived here from Richmond on Saturday, and hopes to obtain interference from the President or Gen, Grant with Gen. Schofield's action, and to sustain his protest.

-Gen. Grant issued an order on Saturday granting one week's leave of apsence to all the clerks connected with the War Department who wish to go home to vote at the approaching election. In accordance with this, a large number of clerks left last evening for New York.

-The Secretary of War has issued an order raising the standard of qualifications for appointment to the army to what it was before the war, which will require proficiency in several branches human life and very destructive to propof higher mathematics, including plain and solid geometry, logarithims, &c. A more typorough examination is also required. The result of this will be a diminustion in the number of applications.

-Two policemen were shot, probably by Fenians, in the streets of Dublin on last Wednesday night. A reward of £1,000 has been offered for the arrest of the assassins.

-The marriage of King George of brated Friday at St. Petersburgh, with great ceremony.

-Allen and four other Fenlans, who were on trial at Manchester for murder, were on Friday convicted of that offense. Gen. Warren is now on trial before the the Commission at Dublin.

VALUE OF PRESENCE OF MIND .- We have briefly noted the fact of an explosion of gas in Hubbard's block, on Friday afternoon, but the facts prove that it was a very narrow and remarkable escape from a great calamity, involving almost with certainty, the destruction of a large number of buildings in the business part of the town; and they also prove the great presence of mind in the instant of danger. Bricklayers employed in the basement had broken a gas-pipe, but were not certain of it. As a test, they applied a match, when an explosion occurred which nearly prostrated T. J. Hubbard, E-q, the owner of the building, badly burned several of the bricklayers and attendants, and set the building on fire. At this instant, Clarkson R. Bancroft of Boston, a gentleman familiar with gas fixtures, and detective Shattuck, also of Boston, were also standing on the side walk near eign country for these specimens within the door of the basement. Comprehending the danger of a calamity, they instantly jumped into the cellar, and by applying handkerchiefs to the gas-pipe, the flow of gas was prevented until a stopper for the pipe could be applied. In doing this, Mr. Bancroft braved the stifling gas and the fire, and was considerably burnt, but he saved the building by cutting off the gas and ex-tinguishing the flames It had kindled. In a few moments more gas was found escaping from another source, there being no cut-off in the pipe running from the building to the main pipe in the street; and no gas man being at hand, Messrs. Bancroft and Shattuck applied a stopper to this leak, and made all safe again. Not only Mr. Hubbard, but all other owners of property endangered are greatly indebted to Messrs. Bancroft and Shattuck, and this public acknowledgment of their services is gratefully given. Again let us warn all concerned to be exceedingly careful in their gas fixtures. Instances are recent of explosions in Massachusetts fatal to

> erty .- Walton's Journal. A WONDERFUL MEDICINE .- Notwithstanding it has never had the advantage of newspaper publicity, it has yet acquired a higher and more extended popularity than any other similar compound. We refer to Johnson's Anodyne Liniment.
