Appalling Accident at Cavendish. TWO LADIES CARRIED OVER A DAM-BOTH DROWNED-A MOST THRILLING

A most sad and fatal accident occurred at Cavendish on Monday evening at about 7 o'clock. Mrs. Albina Knights wife of Horatio Knights, and Miss Ellen M. Cary, both operatives in James Felton's woolen mill, proposed the exploit of crossing the mill pond in a boat, the water being high and the current strong from so large a flow over the dam. Being ready to start, they urged other friends to ride with them who not only refused, but earnestly urged them not to make the attempt. They did not, however, share in the fears of their friends, and pushed off their boat, waving their handkerchiefs in salutation and bidding "good bye" to those on shore. Then followed one of the most painful and thrilling scenes which ever occurred in Vermont. They had got but a short distance when it was perceived that the current was carrying them down, but they did not appear to notice it. Nearer and nearer they approached the dam till Miss Carv rose and jumped out of the boat. The strong current immediately carried her over. Mrs. Knights remained in the boat, and just before it made the fatal plunge, seemed to faint and fall back as it went over carrying her to a watery grave with her friend, or possibly she may have thrown herself into the bottom of the boat, with possible hope that in that conrent carrying them very rapidly down into the rocky gorge known as Cavendish Falls. The feelings of those who witnessed this seene who were utterly poweress to render assistance may perhaps be imagined but certainly not described. Constant efforts are being made to recover the bodies but they had not been found up to 11 o'clock Tuesday forenoon, and the banks of the river were lined with people aiding in the search. The river high from the late rains, and it is doubtful if the bodies are found till it in Walpole. N. H. Pasturing will be provide for marcs from a distance, at a reasonable rate, an recedes. OUR REASONS AND WE TRUST OUR JUS-MOTHER BAILEY'S QUIETING SYRUP. MOTHER BAILEY'S QUIETING SYRUP. are furnished by the frequency and fatality of the diseases of infancy and childhood. So alarming and serious are the diseases, that one child in three dies before the fifth year. These facts afford conclusive argument for enfercing on mothers the importance of using a remedy, (which contains no Morphine or Poisonous Drug) and never fails (when timely used) to effect a cure. It greatly assists the child through the months of teething, allays all nain, reduces in to effect a cure. It greatly assists the child through the months of teething, allays all pain, reduces in-flamation, corrects acidity of the Stomach, and never faits to regulate the bowels; makes sick and weak children strong and healthy, produces natural sleep for the child, thereby affording rest to the mother. For summer complaints, Dysentery and Diarrhess, it has no equal. For Wind, Colle, Convulsions, Griping, &c., it never fails to give immediate relief MOTHER BAILEY'S QUIETING SYRUP, for children, is an original medicine, well established, therefore use no other and you are safe. It is true that our former Superintenden having left us the usachinery is not at present running, and will not be until new arrangements are made, of which due notice will be given. given.

People have read of the walls of Jerisho falling at
the blowing of Ram's Horn: but it is doubted that
they ever heard of the dissolution of a partnership
by a simple announcement, except with the mutual
consent of the partners or such other method as may
be pointed out by law.

WATER WHEELS!

WHY IS THE CHAPMAN WHEEL THE BEST WHEEL IN USE?

BECAUSE it will do the same work with less scates than any other iron wheel made.

Persons using them find their Franks keep full, and with other wheels they deem down or dees up.

Spanishing & Patch of Ladlow, say: The wheels put in for us meet our expectations perfectly,—we put in for us meet our expectations perfectly, we can grind as much grain with one half the water a with the old wheels — one of the wheels taken ou was Wait's Jonval Turbine.

CIRCULAR SAW MILLS! The attention of Lumberman is invited to our new CIRCULAR MILL with

BALL'S PATENT LEVER SET. The superiority of which is obvious at sight. A mill can be seen at work at our place and it will tell its own story better than we can.

Persons in want of a good wheel or a good mill will find it for their intrest to call and see us or send their orders.
