DENTISTS, 44 Water Street, Newburgh, N. Y.

(Patented in the U. S., England and France,)
For Orange Co., and Ellenville. The main difficulty in wearing Artificial Teeth is they do not hold to their place firmly enough. This is the **Only Improvement**Yet known that will obviate the difficulty, and prevent particles of feed from getting under the plate. Having used it in our practice to a great extent, and with the most perfect success, we now offer it to the public, and promise a **Perfect Kit in every Case**.

This certifies that hrs. Thumpson Brothers have the

This certifies that Drs. Thompson Brothers have the exclusive right to make and use our improved Dental Plates, for Orange County, also Elleuville, Ulster Co., N. Y. N. T. FOLSOM, Inventor and Proprietor. Boston, November 1st, 1868.

For further proof read the following: NEWBURGH, May 1st, 1869. NEWBURGH, May 1st, 1869.

Drs Thompson Brothers:

Gentlemen: I am now wearing the plate you made for me, with Pelsom's Improvement, and will say that it is far superior to anything I have ever before been able to lar superior to anything I have ever before been able to obtain. I can use it with perfect case, and am not troubled at all by the plate drapping, or any food or seeds working under it. It is truly a very valuable discovery. If you desire to use my name as reference with regard to the improvement for which you have the right, you are at liberty to do so. Yours truly,

JNO. J. S. MCCROSKERY.

Cashier National Bank of Newburgh.

Washingtonville, May 8, 1869. WASHINGTONVILLE, May 8, 1869.

Drs. Thompson Brothers:
Gents: I write to say to you that the set of artificial teeth you made for me with Folsom's Improvement works admirably. It is an utter impossibility for food or seeds to get under the plate. To those about to get a new set of teeth, I would say, by all means go to Drs. Thompsons' and get the benefit of the patent. It is valuable, Yours truly.

W. C. BURNHAM.

We would also call attention to a material for filling and restoring decayed teeth to their original beauty and soundness, which has been extensively used by Dr. Evaus and other eminent Deutists in Europe, and within a few years introduced in this country, and used by usonly in Newburgh.

We submit the following testimonial from Dr. E. H. Champlin, of Cornwall, with regard to it, to Drs. Thospson, Newburgh, N. Y.:

Dear Doctors: The plastic filling you have lately introduced in your practice. I have used for some years, and prefer it as a filling for teeth to gold. It is not only ucaper, but in my opinion in every way better. E. H. CHAMPLIN, M. D. Cornwall Heights, May 8th, 1869.

NITROUS OXIDE GAS Successfully administered since first introduced by us in this place, five years since. It is perfectly safe and relia-ble when prepared and administered by an experienced

NEW PALTZ ACADEMY THE subscriter begs leave to inform the citizens of New Paltz and vicinity that he has leased the Academy for a number of years, and will re-open it on the 21st of September, 1868.

The course of instruction will be thorough, comprehensive and liberal, comprising the lower and higher English branches, Mathematics, Natural Sciences, Latin, Greek, French, Vocal Music, and for Boys, Military drill. No pains, nor expense have been spared in engaging competent and accomplished assistants.

Scholars of both sexes will be admitted to the DAY SCHOOL, also in the Boarding department.

Reasonable allowance will be made to boarders who return home over Sundays.

The school year for boarders will consist of two terms of 21 weeks each, including one weeks vacation at Christmas, and one in spring. For the accommodation of dayscholars the year is divided into three terms.

The price of board and tuition will be \$500 a year—half of this sum payable in advance at the commencement of each term. The tuition of day scholars will be:

Primary Class.

Patrons of the Academy will obligo the Principal by an early application in order to facilitate the organization of Classes.

YET MADE IN DENTISTRY ! ARTIST, AND WAX FLOWER MATERIALS, FO IS COME'S Improved method of constructing ATMOSPHERIC PLATES for Artificial Teeth, patented in the United States; England and France These plaies are firmly, secured to the mouth, and particles of food and seeds

> the exclusive right to make and use our IMPROVED DENTAL PLATES for the people of POKEEPSIE, N. T. FOLSOM, Inventors STILL ANOTHER IMPROVEMENT: Patented by Dr. G. W. Cool, of San Francisco The nature of this inprovement consists in lining the entire concave su face of Vulcanite Plates with fine gold. It makes the plate twice as strong and one third thinner than the common Vulcanite Plate. It prevents the acids of the mouth from roughing the piate or turning it black, and admits of a very fine finish on the concave or palate surface. This style of work has the advantages of both gold and rubber work and can be made for one talf the price of an ordinary gold set. I have also secured the right to make this style of work, and can highly recommend it.

This is to certify that Dr. II. F. CLARK, has

Teeth Extracted Without Pain. I have administered the Nitrous Oxide to over three tered by an experienced operator.

N. B.—I am inserting all the different styles of Artificial Teeth for less than I have formerly charged.
