Ward Beecher. Henry Ward Beecher has sent the followng letter to the Printers' Grant and Colfax Peekskill, N. Y., Sept. 4, 1868.

Mr. G. W. Schriven:

DEAR Str.-I received duly the notice of my election as an honorary member of the Printers' Grant and Colfax Club of Washington city. I accept the honor with pleasare, and shall co-operate with you in every just measure for victory of those fundamental principles of moral and good government of which Grant and Colfax are the expositors. Revolutions do not go backwards, and I shall have every confidence that the conscience and intelligence which led this great nation to resist slavery and to defeat it will now refuse to put the government into the very hands which either were raised against it or which refused to help in its defence. The new adhesion of important Southern men to the very worst type of democratic doctrine over educated since the party went into alliance with slavery cannot but be as disastrous for the South as was its league with the same party before the war. The Democratic party seems fated to lead the South into desperato steps and then to be utterly unable help those whom it has deluded. It will be so again. Utterly lost to all moderation, the Convention in New York has laid down a platform which will bring civil war to the South again unless it is prevented by the victory of the Republican party. 1 am, very

READ THE TESTIMONIALS:

G. W. THOMPSON, ESQ.—Sin. I have examined, according to your request, the figuid you employ for illumination, with reference to determining its liability to explosion; and I am of the opinion, contrary to ray previous impression, that it is exceedingly improbable, if not altogether impossible, that any accident in its ordinary use could arise from the explosion of its vapor in a can or lamp. Should you desire, I can give the experiments in detail. It is expectfully yours.
