The \$30,000 in the Bank of Wooster, Ohio, have been transferred to the Clinton Bank, at Columbus, Ohio, and been transferred to the Bank of America, of this city — Within the month of October, transfers amounting to \$1,126,814, were ordered, more than half of which was ordered from the Banks of this city to New Orleans, fo^T the liquidation of a portion of the expenses growing ou₁ of the expeditions to Texas. The Merchants' Bank of Boston has a larger amount of the public money than any other depository. In October, transfers of \$100,000 from Boston to Charleston, of \$50,000 from Washington to St Louis, and of \$40,000 from Detroit to Albany, were made. On the 27th of October there were fifty-four depositories On the 27th of October there were fifty-four depositories The surplus revenue is now about as large as it will be The surplus revenue is now about as large as it will be for many years to come, and the present amount is distri-buted throughout the country so extensively, and por-tioned out in such small sums, that no very serious evils can arise from its use, or any very serious loss be expe-rienced by the defalcation of any single depository. The surplus revenue of the government must be gradually reduced by the excess of expenditures over receipts. The revenue from customs for the calendar year bias The revenue from customs for the calendar year 1845 will be at least six millions less than that of last year' while the current expenses will be not far from three to four millions larger, making a difference in the finances four minious larger, making a underline in the maride of the government of about ten millions of dollar, g-an amount equal to the present surplus revenue. So, wen mil-lions of dollars of the public debt falls draw july, 1853, to pay which will require a new loan to any full amount,

for even under the present tariff act, we sannot, at that time, anticipate a surplus. We cannot, even fund the present surplus, as proposed by the l' ate Secretary of the present surplus, as proposed by the 1 ate Secretary of the Treasury, to meet the next paymer's on the public debt. It is an uncontrovertible fact, that the average rate of duty under the present tarif, is any ally becoming reduced, and if the ultra free trade politistans in Congress will have a little patience, the average or rate of duty will come down to their standard of a ' evenue tariff, without a single al teration in the prese at act. Before the tariff act of 1842 has been in existe has been in existe ace as long as the compromise act 1832 was, there will be but a small per cent difference in the rate of duty anforced. The provisions of the celebrated compromine act of 1832, required periodical reductions in the duty. the duty, so as to bring the average from thirty-five down to tw only per cent in ten years, which was at the rate of the last the average or , and a half per cent per annum. In 1843 the average rate of duty on dutiable imports was 36 13-100 per cent, and in 1814 it was 34 82-100 per cent - a reduction in one year of 1 31-100 per cent--an annual reduction nearly equal to that of the compremise act.

Native Lamentations-Serious Accident-Rape Cases

Markets, etc. There is an unusual dullness still prevailing in the

news market in this vicinity. The only sound that is heard above the rattling of the cart wheels, is the mourn-

ful lamentations of the natives over the sudden death of so many of their triends in New York. And well they may mourn, for never were so large a body of men so suddenly cut off in their prime. One short year ago, they numbered, all told, about 17,000 hale and hearty

men; and only the previous year to that, over 24,000-and now, alas, some fatal mortality has reduced their

number down to 8000, showing a regular decrease of south the second seco

se soon to be numbered with the things that were the with their faces screwed up into ""Such vinegar aspect, That they'll not show their teeth by way of smile, Tho'Nestor swear the jest be laughable." Althougt, the present is bad enough, they argue in this wise: If, say they, our patriotic brethren of New York, numbered 24,000 two years since, and 16,000 one year ago, and only 5000 now, and they should decrease in the same ratio, how many will there be left to tell the tale next year ? According to my calculation there will be none, and I believe they have come to pretty much the same conclusion—though their worthy Secretary, a Clerk in the Marine Bank, is figuring it up by the role of fractions, with some hopes of leaving a few hundred of the "uole band" who " first set the ball in motion." An accident of a most serious and painful nature oc-curred yesterday morning to Mr. John Sharkey, of the firm of Smith & Sharkey, chima merchants, which I learn will, in all probability, result in death. He was en-ragged in moving a crate, when he slipped and tell through the hatchway from the second floor to the cellar, severely fracturing his skull. Last night he was still insonable, and but little hope was entertained of his re-covery. Two of the parties to the recent rape case. Musgrave

of Potter are subarticum was not one of their wives or daughters. The Arghters.—The effect of the news by the Caledonia and grain market yesterday, though prices are by no means settled. On Wednesday, after the receipt of the news, sales of Howard street floor to the extent of two housand five hundred to three thousand barrels were made_a portion of it in the morning at \$5 18 to \$5 20 and subsequently, after the New York mail arrived, at 50 aloper bbl., at which latter price sales to the extent of about 400 bbls, were made yesterday morning. Some streasking more, but most are willing to take \$5 00. The market was not quite so stiff as it was on Wednesday, and buyers were less disposed to operate. The receipt price is unsettled. Sales to the extent of about 2000 bbl. (Ity Mills, were made on Wednesday, at \$5 50, and anall operations yesterday morning at \$5 40 on of bbl.
