PROSPECTUS.

A number of the leading Bankers and Merchant-A number of the leading Bankers and Merchants of New York, in consideration of the great success, which has attended many of the Charitable Presentation Entertainments of the day, have formed them solves into a company, with the view of inaugerating an enterprise, which while it shall seture them a far orofit, shall offer greater advantages to ticket purchasers than any yet presented; and which being conducted upon a perfectly fegitimate and business have, shall be free from those objection the features which have characterized many of these enterprises. Pothis end they have consigned the sale of tickets

and the registering of the same, to Clark, Webster to Co. Hankers and Managers, No. 52 Broadway, New York, who will keep the records in their custody until the day of the Grand Presentation Entertainment, when they will be handed over to a committee selected by the audience to make an impartial distribution of Presents. A reference to the number of presents and the general plan of distribution, given below, will convince even the most skeptical of the great advantages which will accrue to all who participate in the enterorise; and the Commercial and financial standing of the feet to be no humber. For forther particulars, Company and Managers and Bankers thereof, will hey how, prove a sufficient guaranty of the fairness and impartiality with with everything in cannection with it will be conducted, and that the interests of

IMPROVED ANVIL FOR KWAGING CALKS HORSE SHOES. By this anvil toe calks are made and welded on the shoes much quicker and better than by the old process, the whole work being done by these or four blows of the harmer, sharpening the calk at the same time. The abvil also applies to heef-calks as well as toe calks. It saves one ha'l the labor of fitting up horse shoes.

The following certificate shows what livery stable keepers think of this method

The celebrated author, in this armirable essay, clearly demonstrates, from a thirty years' successful practice that the alarming consequences of self-abuse may be radically cired without the dangerous use of internal medicine, or the application of the knife, —pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and redically.
