Very cheap, at

The Demand for the Water Works in all Sections of the Country. tection against disastrous conflagrations. A they propose to supply to communities the full and reliable supply of water for communities, embracing household purposes, watering streets, sprinkling lawns and supplying fountains is also more than over felt to be a public necessity, because in this way is the public health largely promoted, and the beauty and attractiveness of cities and villagos greatly augmented. These two most important objects of fire protection, and water Buffalo for a home and home match, the first supply, are fully accomplished by the new

system of water works invented by B. Holly, and manufactured by the Holly Manufactur-Ing Company, at their extensive machine new features and combinations is covered by the Monitors following the example of their tive and mechanical genius has won for him to get waxed by a score of 35 to 25. a high reputation, and under his immediate the frequency of fires in Lockport, during probability be played in this city. the winter of 1862-3, which the Fire Dowhat hitherto seemed to be insurmountable difficulties, and dispensing with costly re-

servoirs and exponsive, but inefficient fire engines—gives communities a perfect fire protection, and a cheap water supply. Our readers are already familiar with the general owners in the most thickly settled portion of our city. They have had repeated opportunities for testing their great value. In the celerity with which water can be powerful and untiring flow-in the quiet application of the water just where it is wanted, without any of the noise, confusion and smoke attendant upon working hand and steam engines, and in the certainty of throwing water in extreme cold weather, through those underground pipes, and comparatively short strotches of hose, when increased lengths of hose through engines, would in-

ovitably freeze-in all these, and other respecis, the Holly works are regarded by experienced men, as far superior to any arrangement for the suppression of fires now in use.

pips-one lead being five miles long. Sevthe Covernor of New Jersey, directing the the Company, the work on some of which, it is expected, will commence at an early day. It will be seen, then, that Mr. Holloy's plans for water supply and fire protection will take the place of fire engines, as rapidly great wonder is the rapidity with which it restores their mosting last evening appointed the fol. as the public become aware of their great gray hale to its original color.—Sarannah (Ga.) 18-Amazomonts, with power to appoint sub. renders we will give Mr. Molley's plan in the

lowing persons a Congral Committee on advantage. For the information of our of the Second Presbytering Church to unite Pumps within a frost-proof and fire-proof bytorian Church in that picule. Voted to or stoam power. These patent pumps are supplied with water. Hydrants are set at branch pipes faid as required for supply of dwellings, fountains for sprinkling streets, lawns, or for any other purpose. Shattered Constitutions. Our constitutions are clastic. They are not easily shattered. In fact, strictly speaking, Death alone can shatter them, for they represent the reserve of vitality, which enables the enfeebled system to react, when the pressure of disease is removed from it But it is the fashion, when the body is weak, the circulation languid, the nerves tremulous and the mind depressed, to say that the constitution is ruined, or broken down, or shattered. In cases of the kind described administer HOSTETTER'S STOM-ACH BITTERS, and it will soon be seen how little ground there is for this stereotyped note of alarm. The tonic and alterative properties of the specific, rapidly diffused through the whole organization by the stimulant which forms its basis, will immedistely create a favorable reaction, and this reanimating process will go on as the medicine is continued until strength, health and mental activity are completely restored. Every day cures of this kind are accomplished. Let the debilitated invalid, when told by his condoling friends that "his constitution

Is shattered," have recourse at once to this strengthrecruiting preparation, in which the finest stomachics and alteratives of the vegetable kingdom are represented, and he will soon be able to meet their gloomy forebodidgs with a confident smile, and to announce that he has taken a new lease of life und its vitalizing operation.
