CHURCH!

We saw a few days since in the report of Baldwin & White's Machine Shop what is called Cornell's Rotary Churn.

BASE BALL CLUB.

A Base Ball Club has been organized by the young men of this village with the following officers:

President—J. S. KENNEDY. Vice President—M. N. McCLINTOCK. Secretary—L. L. FANCHER.

JERMS, SUCK THIS IF YOU CAN.

Accompanying the above delicate intimation of one of our boyish proclivities, Mr. O. B. Herrick has handed us what we are compelled to style a large hen's egg, or a rather small gousa egg. Mr. H. says it is the product of a Dominie hen. It measures as follows: Diameter around, lengthwise, 8 inches; diameter around, sidewise, 6 1/2 do.; longest diameter, 3 do.; short diameter, 2 1/2 do.; weight, 5 ounces. We are left in doubt as to whether it is the egg or the story of its origin that we are to suck.

RECOGNITION.

A more judicious patronage is seldom witnessed than that which we have seen at Herrick's Hall on Tuesday evening last. To hear the election returns, we were present. The glorious result in this county, and especially the splendid victory in Syracuse and many other localities, put the Fair's issues in the very best of humor. Short speeches were made, and the result was a grand success. The election of the Fair's officers was a grand success. The election of the Fair's officers was a grand success.

EVERY THING GOES LOW.

For a long time the Democrats appeared depressed and castigant; but they continued to keep a stiff upper lip. It is reported that New York had not yet been heard from. And since then they seem to have had their revenge, in a measure, at least for Mackereville and the Five Points. It is fitting conjunction with this news, it was announced that John Morrissey, the Champion Pugilist and Gambler, was elected to Congress by 2,000 majority. This was a cheering prospect for the Republican cause. It is reported that the election of Morrissey to Congress was a grand success. The election of Morrissey to Congress was a grand success.

Support well that on which your happiness depends.

I suppose that every sensible person has been trained so as to make it a point to buy goods, where goods can be bought cheapest.

To buy goods of the Merchant who keeps his Stock in good order—who keeps that Stock constantly replenished, and who figures his expenses low.

Now it is well known that such a man sells the best quality of goods cheaper than any other man.

Please note the fact, that we can make more money out of a profit of 10 per cent., than a merchant doing business in Syracuse city, with his extra expenses, can make out of 20 per cent.

Our Store is now jammed full of goods, and we are prepared to play all our wares. Among our stock may be found:
